

Ambitious Unity Developer with 2 years of experience, specializing in C# programming, Unity3D. A 2025 M.Sc. graduate, I deliver clean, scalable gameplay systems and collaborative solutions. Eager to bring my skills, creativity, and drive to your team to help build engaging, high-quality interactive experiences.

SKILLS

- C#
- Unity
- UniRx
- TeamCity
- Entity Framework
- Git
- SQL
- JavaScript
- SOLID
- OOP

LANGUAGES

- Russian: Native
- English: B2

Experience

Unity Developer, Patternmasters

May 2024 — Jun 2026

Tabletop game Ludo for mobile platforms:

- Built a reusable interface constructor to accelerate creation and layout of similar pop-ups
- Implemented player level progression logic and integrated it into core gameplay systems
- Worked with Figma to translate UI layouts and design specifications into Unity interfaces
- Implemented REST API and Firebase Cloud Functions on the server side for game features and services
- Applied AI-assisted development tools (Cursor) to streamline implementation and iteration cycles

Midcore auto-battler "Mech Heroes"

- Developed and maintained core gameplay features on client and server side
- Implemented new characters, including ability logic, model integration, and visual effects in Unity
- Created, integrated, and polished UI screens and elements in Unity for multiple platform targets
- Integrated platform APIs and SDKs for web builds
- Developed interaction logic between Unity client code and third-party JavaScript APIs via JsLib for WebGL builds
- Implemented in-game purchase flows
- Configured TeamCity build pipelines, including environment-specific domain substitution
- Created client-side code validators using reflection to enforce consistency and improve code quality
- Optimized SQL queries to improve request performance
- Diagnosed and fixed bugs in both client and server components across the project
- Performed code reviews

EDUCATION

ITMO University

Master's degree 2023-2025

Game Development Technologies

Oryol State University

Bachelor's degree 2019-2023

Software Engineering
